

Module 4 challenge

1. In order to build trust, data professionals focus on the expectations of _____, who are the people investing time, interest, and resources into the project.

1 / 1 point

- ☐ subject-matter experts
- ☐ administrators
- ☒ stakeholders
- ☐ data analysts

✓ Correct

2. You are invited to a meeting. You review the agenda and notice that your data analysis project is one of the topics that will be discussed. What strategies should you use to prepare? Select all that apply.

0.5 / 1 point

☒ Bring materials for taking notes

✔ Correct

☒ Plan to arrive on time

✔ Correct

☐ Think about what project updates you should share

☒ Distribute a revised agenda that includes more details about your project.

✘ This should not be selected

Review [the video about meeting best practices](#) ↗.

3. To communicate clearly with stakeholders, there are four key questions data analysts ask themselves. One of the questions is: What does my audience already know? Identify the remaining three questions. Select all that apply.

1 / 1 point

☒ What does my audience need to know?

✔ Correct

☒ How can I communicate effectively to my audience?

✔ Correct

☒ Who is my audience?

✔ Correct

☐ Why are stakeholders important?

4. You accept a new project from a high level stakeholder. After beginning the project, you find that you aren't sure what you are supposed to do. How do you handle this?

1 / 1 point

- ☐ Ask a member of your team what was done on the last project and do the same.
- ☐ Perform standard analysis and present insights you believe are helpful.
- ☒ Set up a meeting with the stakeholder to discuss the specific objectives.
- ☐ Determine the objectives that make the most sense and work toward those.

✔ Correct

5. Which of the following are best practices that data professionals can use in order to help ensure an effective online meeting? Select all that apply.

0.5 / 1 point

- ☐ Join the meeting from a quiet area
- ☒ Help everyone focus on the agenda by asking them to turn off their cameras

✘ This should not be selected
Review [the video about meeting best practices](#).

- ☒ Ask questions if you need more information or clarification

✔ Correct

- ☒ Confirm your technology is functional

✔ Correct

6. A data analyst at an electrical utility company investigates why electricity consumption has increased in a particular area. During the analysis, which team is most likely to offer helpful insight about electricity users and their particular household needs?

1 point

- ☐ Customer-facing
- ☐ Executive
- ☐ Data science
- ☒ Project management

✘ Incorrect
Review [the reading about working with stakeholders](#).

7. Your manager assigns you a project task, and you don't understand the point of the project. What questions can you ask them to determine the objective? Select all that apply.

0.5 / 1 point

☒ What do you have to do for this task?

☒ This should not be selected

Review [the video about shifting conflict to collaboration](#) [↗](#).

☒ What is their end goal?

☒ Correct

☐ What is the big picture?

☒ What is the story they want to tell?

☒ Correct

8. A data analyst works on a logistics project that aims to create more efficient truck delivery routes. Who is most likely to be the primary stakeholder?

1 / 1 point

☐ Lead truck driver

☒ Vice president of logistics

☐ Data analyst

☐ Customers receiving packages

☒ Correct
