

Module 1 challenge

1. Which of the following items are examples of structured data? Select all that apply.

1 / 1 point

☒ Relational database

✓ Correct

☐ Business notes

☒ Calendar

✓ Correct

☐ Email message

2. Fill in the blank: The number of points scored in a basketball game is an example of _____ data.

1 / 1 point

- ☐ nominal
- ☐ open
- ☐ continuous
- ☒ discrete

✓ Correct

3. Which of the following statements accurately describe first-, second-, and third-party data? Select all that apply.

1 / 1 point

☒ First-, second-, and third-party data should all be checked for accuracy before use.

✓ Correct

☒ Third-party data comes from outside sources.

✓ Correct

☒ First-party data is collected by an individual or group using their own resources.

✓ Correct

☐ Second-party data is often less reliable than third-party data.

4. On very short notice, a data analyst is asked to create a report for stakeholders. Because of the challenging time frame, what type of data might yield the best results?

1 / 1 point

- ☐ Fabricated
- ☐ Unclean
- ☐ Theoretical
- ☒ Historical

✓ Correct

5. A data team is asked to research the effects of a new vitamin supplement on all people over age 55. Because it would be expensive and time-consuming to collect data from every single person over age 55, they research a part of the population that is representative of the whole. What does this scenario describe?

1 / 1 point

- ☐ Choosing quantitative data
- ☐ Using a population
- ☒ Using a sample
- ☐ Choosing a data type

✓ Correct

6. Which of the following items are examples of continuous data? Select all that apply.

1 / 1 point

- ☐ Favorite book
- ☐ Political affiliation
- ☒ Speed of a car

✓ Correct

- ☒ Weight of a baby

✓ Correct

7. What type of data is contained in the following spreadsheet?

1 / 1 point

Employee	Month	Sales
T. Marks	1/22	\$30,928
T. Marks	2/22	\$26,989
T. Marks	3/22	\$28,760
W. Bungee	1/22	\$45,002
W. Bungee	2/22	\$39,726
W. Bungee	3/22	\$36,011

- ☐ Tall
- ☒ Long
- ☐ Wide
- ☐ Unstructured

✓ Correct

8. Which of the following questions would enable a data professional to collect nominal qualitative data?

1 / 1 point

- ☒ Is this your first time dining at this restaurant?
- ☐ What is your height?
- ☐ How many years of experience do you have?
- ☐ How many books do you own?

✓ Correct

9. A data professional at a social media company records whether users have shared a particular post or not. What data type is being collected in this scenario?

1 / 1 point

- ☐ Numerical
- ☐ String
- ☒ Boolean
- ☐ Text

✓ Correct
