

Module 4 challenge

1. You create a spreadsheet to document your organization's daily efficiency ratings. There are five sheets within the spreadsheet, each of which have data about five different facilities. To ensure each facility can only view their own sheet, you put restrictions on the spreadsheet. What practice does this scenario describe?

1 / 1 point

- ☐ Data preservation
- ☐ Data integrity
- ☐ Data hygiene
- ☒ Data security

✓ Correct

2. A data analyst collects data from multiple sources for a project involving many other team members. What should the analyst include in each file's name in order to create a naming convention that allows project files to be located efficiently? Select all that apply.

0.8 / 1 point

☒ Creation date

✓ Correct

☐ Content description

☒ Version number

✓ Correct

☐ Collaborator names

You didn't select all the correct answers

3. While starting a new project, a junior data analyst creates a naming convention for their files. As the project involves multiple team members, they also add data explaining how the naming conventions are structured. What is this data called?

1 / 1 point

☐ Explanatory data

☐ Labeled data

☒ Metadata

☐ Descriptive data

✓ Correct

4. A grocery store collects inventory data about its produce section. What is an appropriate naming convention for this file?

1 / 1 point

- ☐ Todays Produce 2022-15-09
- ☐ Todays_Produce
- ☒ Produce_Inventory_2022-09-15_V01
- ☐ Inventory_Produce 2022-09-15 V01

✓ Correct

5. Fill in the blank: A junior data analyst uses _____ to organize files in a way that keeps project-related files together.

1 / 1 point

- ☒ foldering
- ☐ data grouping
- ☐ data hygiene
- ☐ version control

✓ Correct

6. A marketing manager asks a data professional in human resources to share a spreadsheet. The spreadsheet contains four tabs. Tabs 1-3 are meant for the marketing manager to edit, but tab 4 contains sensitive employee information. Which of the following tactics will enable the data professional to keep tab 4 private? Select all that apply.

0.5 / 1 point

- ☐ Make a copy of the spreadsheet, delete tab 4, then share the new file with the manager.
- ☒ Copy tabs 1-3 into a separate spreadsheet, then share the new file with the manager.

✓ Correct

- ☐ Rename tab 4 to "For HR only," then share the spreadsheet with the manager.
- ☒ Hide tab 4, then share the spreadsheet with the manager.

✗ This should not be selected
Review [the video about spreadsheet security](#).

7. A data team at a manufacturing company finishes a project about production rates, so they delete the related files. However, they are later tasked with another production project, which the deleted files could have informed. What should the data team have done with the original project files?

1 / 1 point

- ☐ Save them on a USB device
- ☐ Keep them on their local drive
- ☐ Print them out
- ☒ Archive them

✓ Correct

8. Fill in the blank: In an effective _____, subfolders are stored within broader-topic folders in order to help organize files into categories.

1 / 1 point

- ☐ file extension
- ☐ permission
- ☒ hierarchy
- ☐ encryption

✓ Correct
