

Test your knowledge on the first steps toward clean data

1. To create a clean and consistent visual appearance for a spreadsheet, which tool ensures all font types, sizes, and colors are uniform?

1 / 1 point

- ☐ Autocorrect
- ☐ Spellcheck
- ☒ Clear formats
- ☐ Conditional formatting

✓ **Correct**

To create a clean and consistent visual appearance for a spreadsheet, clear formats ensures all font types, sizes, and colors are uniform.

2. What is the process of combining two or more datasets into a single dataset?

1 / 1 point

- ☐ Data validation
- ☐ Data composition
- ☒ Data merging
- ☐ Data transferring

✓ **Correct**

Data merging is the process of combining two or more datasets into a single dataset.

3. Fill in the blank: In data analytics, _____ describes how well two or more datasets are able to work together.

1 / 1 point

- ☐ suitability
- ☐ alignment
- ☒ compatibility
- ☐ agreement

✓ **Correct**

Compatibility describes how well two or more datasets are able to work together.

4. What are some benefits of documenting any errors you find while data cleaning? Select all that apply.

0.8 / 1 point

☒ Having a backup of your dataset

☒ **This should not be selected**

Saving time by not repeating errors in the future, keeping track of changes, and more efficient troubleshooting are benefits of documenting any errors you find while data cleaning. Backing up your dataset is a best practice, but it is not related to documenting errors.

☒ More efficient troubleshooting

☒ **Correct**

Saving time by not repeating errors in the future, keeping track of changes, and more efficient troubleshooting are benefits of documenting any errors you find while data cleaning.

☒ Keep track of changes

☒ **Correct**

Saving time by not repeating errors in the future, keeping track of changes, and more efficient troubleshooting are benefits of documenting any errors you find while data cleaning.

☒ Save time by not repeating errors in the future

☒ **Correct**

Saving time by not repeating errors in the future, keeping track of changes, and more efficient troubleshooting are benefits of documenting any errors you find while data cleaning.
