

Claim your Google Data Analytics Certificate badge

Learners who complete all courses of this certificate are eligible to earn a digital badge from Credly and Google.

More details are in the FAQs below. For any other questions, including issues with your certificate, please reach out to [Coursera Learner Services](#).

About badges

What is a badge?

- A badge is a visual representation of a verified credential you've earned. In this case, your credential is the Google Data Analytics Professional Certificate! You'll get a badge upon completion of the program that you can share on platforms like LinkedIn to catch the attention of potential employers.

What is Credly and Acclaim?

- Acclaim is a badging platform that's part of Credly, a leading digital credential service provider. Acclaim provides badges so that you can easily share your achievements to online destinations like LinkedIn, and employers can instantly verify your skills.

How do I add my badges to my LinkedIn profile?

- Follow the steps in this [Credly article](#) to add your badge to your LinkedIn. You can also check out this [Vimeo link](#) for detailed instructions.

About the Google badge

How do I claim my badge for completing the Google Data Analytics Certificate?

- Upon certificate completion, you'll receive an email to claim your earned badge. **To ensure you receive this email, all mandatory content must be completed, including a required activity in the "Accelerate Your Job Search with AI" course (found at the end of your certificate).** The email will allow you to claim your badge by opting in to share your information for issuing. Coursera will then request Acclaim to issue the badge; if you don't have an Acclaim account, you'll be prompted to create one to accept and view it.
- When you complete the Google Data Analytics Certificate, **you will receive an email from Credly** (admin@credly.com) with instructions about claiming your badge and setting up your account.
- Claim your badge on Credly's Acclaim platform using the email address linked to your Coursera account. You'll need to opt in to share your information and receive your badge.
- Please allow at least one week from your date of completion for the system to update. Remember to check your spam folder.

I completed the Google Data Analytics Certificate. What do I do if I have not received an email invite to claim my badge?

- If you've waited a week since you completed the certificate (including the final item in the Accelerate Your Job Search with AI course) and haven't received an email, please submit a request through the [Credly Help Center](#).
